The Pro Series blends proven precision with a slightly finer vinyl profile compared to other NBP series, for increased visibility. Paired with the latest thermal technologies offered in our energy packages, Pro Series windows immediately come to mind as a strong go-to product for any project.

## FEATURES

## ACROSS THIS SERIES

### 100% VIRGIN VINYL

Maintenance-free frames, with fusion welded corners for increased structural integrity far exceeds the strength of ordinary designs, our lowest profile frame and more visible glass.

### DOUBLE PANE CLEAR GLASS

Standard throughout this series.

### DOUBLE WEATHERSTRIPPING

Our draft-resistant double weatherstripping provides UV protection, helps resist mold, mildew, and fungus, and prevents dust, light, noise, and air infiltration.

# DOUBLE HUNG

Double Hung windows are the most popular window style and feature vertically moving sashes. The Pro Series Double Hung sports strength and solidity within a slimmer vinyl profile.

## FEATURES

### DELUXE DUAL-VENTILATION LATCHES

Limit the window opening to a set point during ventilation.

### TILT LATCHES

Both sashes tilt in easily for safe, fast cleaning from inside the home.

### HEAVY-DUTY LOCK

One simple, smooth hand turn; heavy-duty cam-action lock of die cast zinc.

### HALF SCREEN WITH ALUMINUM FRAME

BetterVue screens are fiberglass mesh and extruded aluminum frame, featuring increased strength and improved visibility compared to standard screens.

### STAINLESS STEEL CONSTANT FORCE BALANCE SYSTEM

Provides smooth and effortless operation.

### EXTRUDED LIFT & PULL RAILS

Built directly into sash for greater durability. No added or snap-in components.

### ALUMINUM REINFORCED INTERLOCKING SASHES

Aluminum reinforced, interlocking sashes provide increased strength where sashes meet.

# SLIDER

Slider windows feature sashes that glide smoothly from side-to-side on brass rollers along grooves on the frame structure. Pro Series Sliding windows are a very popular window style, available in either 2-LITE or 3-LITE.

### ALUMINUM REINFORCED INTERLOCKING SASHES

Aluminum reinforced, interlocking sashes provide increased strength where sashes meet.

### HEAVY-DUTY LOCK

One simple, smooth hand turn; heavy-duty cam-action lock of die cast zinc.

### EXTRUDED LIFT & PULL RAILS

Built directly into sash for greater durability. No added or snap-in components.

### HALF SCREEN WITH ALUMINUM FRAME

BetterVue screens are fiberglass mesh and extruded aluminum frame, featuring increased strength and improved visibility compared to standard screens.

## PERFORMANCE

Continuous commitment to environmental conservation and energy efficiency are key ingredients in our product offering. We work toward this goal by partnering with Energy Star and offering packages that increase the energy efficiency and performance of all our products. Environmental awareness is at the forefront of our work from design to the innovative creation of manufacturing practices which are aligned with our Core Values. For full NFRC information pertaining to products within this series and specific to your geographic location please visit [NBPwindows.com/learn/energy-efficiency](http://NBPwindows.com/learn/energy-efficiency)

"ENERGY STAR® is the government-backed symbol for energy efficiency, providing simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions." [energystar.gov](http://energystar.gov)

"The National Fenestration Rating Council is a non-profit organization that establishes objective window, door, and skylight energy performance ratings to help you compare products and make informed purchase decisions." [nfr.org](http://nfr.org)
