

PRO PLUS SERIES

IMPROVE YOUR VIEW

WHY US?

Since 1975, NBP has made energy-efficient windows and sliding doors in Philadelphia, PA. We are a premium vinyl window manufacturer more committed than ever to creating quality products and a positive customer experience.

- Award-winning products
- ENERGY STAR® qualified windows and doors
- Fully experienced, quality-minded people
- State-of-the-art manufacturing facilities
- In-house testing
- Certified product lines
- World-class quality assurance processes

INDUSTRY-LEADING WARRANTY

All NBP residential windows come standard with a limited lifetime transferrable warranty and an easy online registration process. NBP ensures windows will be free from manufacturing or material defects for as long as they remain in use at the home where they were originally installed and the original purchaser (or authorized transferee) owns and resides in such home.

Our warranty backs up our top-quality workmanship, guaranteeing:

- Our windows will not rot, rust, warp, pit, corrode, or blister
- Vinyl colors will remain true for the life of the home
- The moving parts and the insulated glass unit are covered in the case of defects in materials or workmanship

HIGH QUALITY, GUARANTEED

We meticulously Quality Audit our products during the production process. Our quality engineers regularly test our products in a certified lab to verify that they meet the most stringent thermal and structural requirements.

Our testing includes:

- Design pressure testing (AAMA standards)
- Air and water infiltration
- Multiple quality assurance checkpoints during production

INTRODUCING NBP'S **PRO PLUS WINDOW SERIES**

Built with quality and precision every time.

ENERGY EFFICIENCY

With double weatherstripping, stainless steel spacer, and fusion welded sashes and frames, the Pro Plus window is highly effective at keeping out air and water infiltration.

EASE OF USE

Experience the ease of use with our stainless steel constant force balance system, extruded lift and pull rails, and submarine-style tilt latches for double-hung windows.

DURABILITY & BEAUTY

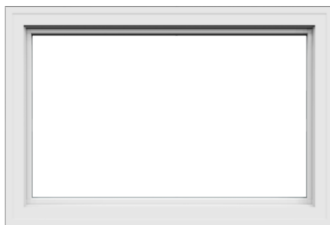

Our 100% virgin vinyl frames and sashes won't chip, warp, or rot - so you can enjoy your view for years to come. Our balance cover adds to a cleaner, more finished appearance.

PRO PLUS

WINDOW FEATURES

1. FUSION-WELDED SASHES & FRAME

Built from 100% virgin vinyl, to be exceptionally strong and durable, helping prevent air and water infiltration.

2. TILT LATCHES (DOUBLE-HUNG)

Both sashes tilt in easily for safe, fast cleaning from the inside. Our submarine-style latch increases DP rating by 20-30%.

3. EXTRUDED LIFT & PULL RAILS

Built directly into sash for greater durability. No added or snap-in components.

4. STAINLESS STEEL CONSTANT FORCE BALANCE SYSTEM

Provides smooth and easy double-hung window operation and never requires lubrication or adjustment.

5. DOUBLE WEATHERSTRIPPING

Dual-fin weatherstripping minimizes drafts, dust, and pollen, and helps resist mold and bacteria growth.

6. ALUMINUM INTERLOCK REINFORCEMENT

Aluminum-reinforced, interlocking sashes provide increased strength where sashes meet.

7. HEAVY-DUTY LOCK

Heavy-duty zinc die-cast cam lock is standard in this series.

8. STAINLESS STEEL SPACER

Fully automated for condensation resistance and seal integrity. **SUPER SPACER UPGRADE AVAILABLE.**

9. BALANCE TRACK COVER

For a cleaner, more finished appearance.

WITH STANDARD WINDOW SCREEN

Extruded standard locking screen with BetterVue® mesh. **FlexScreen upgrade available with painted windows.**

A COLOR FOR EVERY STYLE

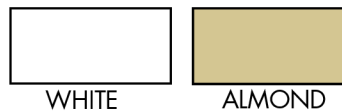

Choose from our list of window frame colors to add your personal touch

Upgraded Window Screens

Enjoy the ease of use with FlexScreen, included with every painted window. This flexible window screen makes installing and removing screens easier than ever and provides an unobstructed, bug-free view.

Standard Vinyl Interior & Exterior

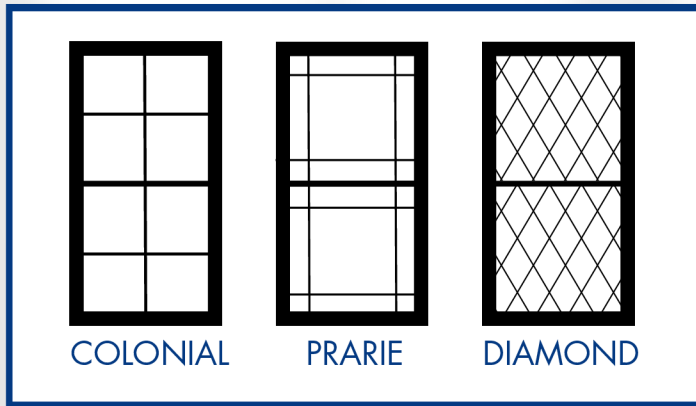

Exterior Paint

With your choice of white or almond vinyl interior frame

*Due to the effects of heat, light, age, and the printing process, samples shown here may vary slightly in color or sheen from the actual materials.

GRID OPTIONS

Grid options can be installed as top sash only, or both sashes on double hung configurations. Colonial grid styles are available in 4, 6, or 9-lite patterns.

ADDITIONAL OPTIONS

SPECIALTY GLASS

Tempered safety glass is available for peace of mind in case of breakage. Additionally, obscure glass offers an added level of privacy, obstructing the view from the window while still allowing natural light to flow in.

FULL SCREENS

Enjoy a bug-free breeze through the house by upgrading to full screens to fully vent your windows, made with BetterVue® mesh.

FRAME FOAM

Choose to inject the hollows inside the vinyl master frame with comfort polyurethane foam to reduce thermal conductivity and help your windows operate at peak thermal efficiency year-round.

FEATURES

BUILT TO LAST: Premium, heavy-duty, fully-welded virgin vinyl

EASY TO OPERATE: Heavy-duty adjustable rollers and tempered aluminum sill track for easy glide

INCREASED EFFICIENCY: 7/8" tempered insulated glass with optional Solarban 60 or 70 Low-E Glass.

SECURITY: Multipoint lock with exterior key lock as well as thumb turn

CUSTOM SIZING: Doors made to fit your home, available in standard 2 panels or multi-panel configurations.

OPTIMAL VENTILATION: Dual-position venting foot lock

DP50-RATED: Our doors are tested and proven to withstand some of the most extreme conditions. They can remain intact when met with a pressure of 75 pounds per square foot, or up to 200 mph winds. We also offer DP-70 and DP-80 rated doors in our WinForce series.

BLINDS IN GLASS: Blinds are installed and enclosed between two panes of Low-E glass, with slide handles allowing easy draw operation. This design keeps your blinds clean and protected.

MULTIPLE HARDWARE PACKAGES: Choose from different colors and finishes, including stainless coastal packages for salt water weather.
