

CRUSADER Woodlands

COLLECTION

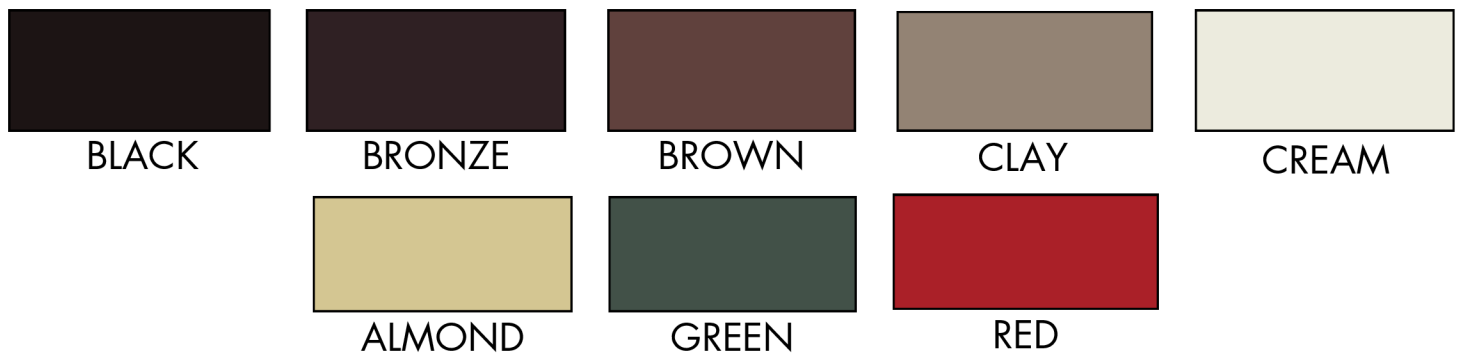

Introducing the **Crusader Woodlands Collection** by NBP – a stunning series that brings the timeless beauty of woodgrain finishes to your windows' interiors. This collection combines elegance and versatility, offering customizable exterior paint options to perfectly match your home's style. Elevate your space with the warmth of wood-inspired design, paired with the durability and innovation you've come to trust from NBP.

Interior Woodgrain Finishes

Exterior Acrylic Coating

Due to printing and digital processing, color samples shown may look slightly different in person.

Offered In Two Window Series

The Woodlands Collection is available in two distinct series: the Crusader Woodland Window and the Woodland Select Window, both offered in double-hung configurations. For those seeking enhanced performance, the Woodlands Select Window offers additional features designed to improve energy efficiency without compromising style.

CRUSADER

Woodland

DOUBLE HUNG STANDARD FEATURES

- **Special Formula Virgin Vinyl:** Keeping your windows beautiful & virtually maintenance-free
- **High-density Polyurethane Foam:** Provides superior energy efficiency - *available as an option*
- **Multi-chamber Frames:** For better performance and improved thermal barriers
- **Constant Force Balance:** Allowing you to lift a 20lb. sash with a single finger
- **Smartshield High-Performance Glass:** Energy-efficient dual and triple glaze options
- **Heavy-duty Zinc Cam Locks:** Pick-resistant and modern, providing enhanced security.
- **Recessed Tilt Latches:** For easy exterior cleaning and a sleek, contemporary look
- **Composite Reinforcement:** C-core technology offers superior structural performance and energy efficiency
- **Strong Screens:** Standard extruded aluminum half screen
- **Fully Fusion Welded:** Four-point welding process creates one solid, cohesive unit that withstands the harshest winds and structural loads
- **Double-fin Weather Stripping:** Effectively protects against air and water infiltration
- **Sloped Sill Design:** Sheds water away from your home

Woodland SELECT

EQUIPPED WITH STANDARD FEATURES (LISTED ABOVE) AND INCLUDING UPGRADES & ADDITIONS:

- ✦ **FOAM-FILLED:** High-density polyurethane foam in the frame and sash cavities provide superior energy efficiency.
- ✦ **COVE MOULDING:** A decorative profile offers a sleek look
- ✦ **LOCK TILT HARDWARE:** Optional DuoTilt™ hardware system eliminates the need for tilt latches
- ✦ **DOUBLE-STRENGTH SEAL:** Similar to a refrigerator door, the power of magnets and our closed cell bulb seal create an ultra-tight closure
